Month	No. of working days	Mathematics	Content/Sub Topic	Activity
April	21	Chapter 1. Knowing Our Numbers	Indian and International system of numeration , Place value, comparison, Estimation, Using Brackets Roman Numerals	<i>Activity 1 : To understand the relation between Indian and International System of Numeration using semicircles and overlapping grids</i>
		Chapter 2. Whole Numbers	Properties and patterns of whole numbers ; The Number Line ;	<i>Activity 1 : To verify that addition and multiplication of whole numbers is commutative using coloured paper and cardboard. Activity 2 : To verify distributive property of multiplication over addition using grids of different colours and dimensions.</i>
June	19	Chapter 2. Whole Numbers (Continued...)		
		Chapter 3. Playing with Numbers	Prime and composite numbers, Test for Divisibility of numbers and prime factorization, HCF and LCM	<i>Activity 1 : To find the Prime Number between 1-100 using Sieve of Eratosthenes. Activity 2 : To find HCF of two numbers using coloured strips</i>
		Chapter 13. Symmetry	Symmetry and its types : Line Symmetry ; Reflection symmetry and the characteristics displayed by each	<i>Activity 1 : To find the lines of symmetry by paper folding. Activity 2 : Making ink bot devils ; magical symmetrical patterns</i>
July	17(8+9)	Chapter 4. Basic Geometrical Ideas	A Point ; Line Segment ; Intersecting Lines ; Parallel Lines ; Ray ; Curves ; Circles ; Polygons ; Angles ; Triangles & Quadrilaterals.	<i>Activity 1 : To understand parts of a circle by paper folding Activity 2 : To make a rectangle, square and a parallelogram using set squares.</i>
August	21	Chapter 6. Integers	Introduction to integers ; Addition of Integers ; Subtraction of Integers with the help of a Number Line	<i>Activity 1 : To add integers using number line Activity 2 : To add and subtract integers using red and blue coloured squared pieces.</i>
		Chapter 7. Fractions	Introduction to fractions ; Types of fractions and Conversion : Mixed , Proper & Improper ; Equivalent fractions , Addition and subtraction of fractions ; fractions on number line ; simplest form of fraction ; Like & unlike fractions and comparison.	<i>Activity 1 : To find fractions equivalent to a given fraction by paper building</i>
September	10(7+3)	Chapter 9. Data Handling	Recording and Organisation of Data and representing in Pictograph and Interpretation of a Pictograph; Drawing a bar graph and reading the values depicted therein.	<i>Activity 1 : To collect data of different sports liked by students in class / campus/ society or home and then represent the raw data thus collected in a pictograph and bar graph</i>
October	16	Chapter 8. Decimals	Introduction to decimals ; Comparing Decimals ; Addition and Subtraction of Numbers with Decimals ; Conversion of Decimals into Fractions and vice versa.	<i>Activity 1 : Visit to Supermarket. To identify and understand the decimal numbers in the shopping bill. Activity 2 : Understanding addition of decimals using white coloured thick sheet of paper.</i>
		Chapter 10. Mensuration	Introduction to Perimeter ; Finding Perimeter of regular closed shapes ; Calculating Area of different shapes	<i>Activity 1 : To derive the formula for the Area and Perimeter of a rectangle using square paper Activity 2 : To observe that shapes having equal areas may not have equal perimeters.</i>
November	11	Chapter 10. Mensuration ...continued Chapter 5. Understanding Elementary Shapes	Measuring and comparing line segments ; Measuring and comparing different types of angles - ('Right' 'Straight' 'Acute', 'Obtuse' and 'Reflex' Angles ; Perpendicular Lines ; Classification of Triangles ; Quadrilaterals and Polygons.	<i>Activity 1 : To verify that the diagonals of a square are equal and are perpendicular bisectors of each other by paper folding method</i>
December	20	Chapter 14. Practical Geometry	Introduction to using compass ; Construction of a circle when radius is known, construction of line segment of given length ; construction of perpendicular and perpendicular bisectors ; Construction of angles of given measures, Constructing copy of an angle and angles of special measures (30° ,60° 90° 120°)	<i>Activity 1 : To obtain angle bisector through paper folding. Activity 2 : To make a Protractor by paper folding. Activity 3 : To draw perpendicular to a line from a point not on it. Activity 4 : To obtain perpendicular bisector of a line segment by paper folding using thick sheet of paper.</i>
January	12	Chapter 11. Algebra	Introduction to the idea of variable ; application of variables in geometry and arithmetic, matchstick patterns ; Use Of Variables in Common Rules ; Expressions with Variables and Solving equations ; Using Expressions Practically.	<i>Activity 1 : To derive general rule for given matchstick patterns.</i>
February	22	Chapter 12. Ratio and Proportion	Introduction to Ratio & Proportion and the comparison between the two. The usage of symbol ":" or "=" used to equate two ratios. Using 'Unitary method' of solving sums.	<i>Activity 1 : To study the concept of ratio by cutting and pasting.</i>
March	3	Revision		

Month	No. of working days	Science	Content/Sub Topic	Activity
April	21	Chapter 8: Body Movement	Human Body and Its Movements Gait of Animals	Activity : Attach a stick to your arm and observe if you can move our arm or not. Activity : Observe the movement of a snail.
